

The Cohos Trail Databook. Northbound, is an indispensable hikers tool for navigating northbound on the 170.5-mile Cohos Trail from southern Crawford Notch in the White Mountain National Forest to the headwaters of the Connecticut River on New Hampshire's border with Canada. This databook contains mileage, simple directions, and trail notes in an abbreviated fashion so it is easy to use by thru-hikers and section hikers on the trail. If you are going to be hiking the Cohos Trail northbound, don't leave home without it.
