

Raised during the hippie era, Anne Spring had an inborn desire to be free to experience life and the wonders of what she perceived to be God's creation as she saw fit, free from the shackles of a 9 to 5 job just to survive. She saw Jesus for what He was: a long-haired hippie in sandals who rebelled against the system of His day while loving the outcasts and the sinners. But was it possible in this modern day and age to serve and follow Jesus, while remaining unplugged from the bonds of conformity? Using Him as her role model, Anne Spring has been following Jesus' example for 40 years, helping the needy, raising and home-schooling three children in the process. Unplugged from the Norm proves that it is possible to live a life like Jesus commanded, outside the established system, and that He actually likes it when we do. He has promised to supply everything we need, according to His riches, as we go. Unplugged from the Norm is a non-fictional account of Anne Spring's life, travels, service for the Lord, and His miracle supply over the past four decades across five continents.
